

DiTech

Group, Inc.

OUR TEAM...

Our employees are knowledgeable, industry savvy, and committed to your success. We know how to partner with clients to meet challenges, find cost-effective solutions, and grow our businesses together.

Our suppliers are among the best in the industry, held to the same high standards that we demand of ourselves. National Steel Rule... Marco Wood... Bohler Steel Rule... Monroe Rubber... Sandvick Steel Rule... MacDermid Printing Solutions... Agfa Pre-Press Solutions... Anderson Vreeland --- all have teamed with DiTech to produce tooling designed to meet your needs.

OUR PRODUCTS...

SUPERIOR QUALITY:

We are one of the highest quality tooling producers in the industry. In addition to our state of the art equipment and innovative production methods, we implement stringent quality control measures to produce a superior product that eliminates downtime and missed deliveries.

ARTWORK:

Our art department can design a printing solution engineered for "Direct Print to Corrugated" and help you avoid the delays and additional cost often associated with ad agency designs. No more missed deliveries, no more duplication of effort, no more unnecessary production costs!

DESIGN:

From pocket folders to point of purchase displays - we provide personalized designs to meet the needs of your product. Our design department can tackle a wide range of packaging needs and provide a unique solution for each customer. Whether you need one sample, or one-hundred, DiTech can deliver!

CUTTING DIES - PRINTING PLATES:

Take control of your packaging from concept to production. Our industry knowledge and experience allows us to understand the Converting industry better than most tooling suppliers. We work directly with manufacturers to build the right tool for the job.

- All files are stored for future repairs or exact replacement
- All tools digitally produced
- Minimal set up time required
- Maximum production speeds achieved
- Customer identifications are clearly marked
- Q.C. sign-off sheets for accountability
- Hand-holds are placed for safe handling

at the lowest price possible, on time, every time!

OUR EQUIPMENT...

LASERS:

We worked closely with our laser suppliers to develop the industry's premier wood cutting systems. Thanks to our advanced technology, you get a superior quality product, delivered in less than average time, without the premium price!

RULE PROCESSORS:

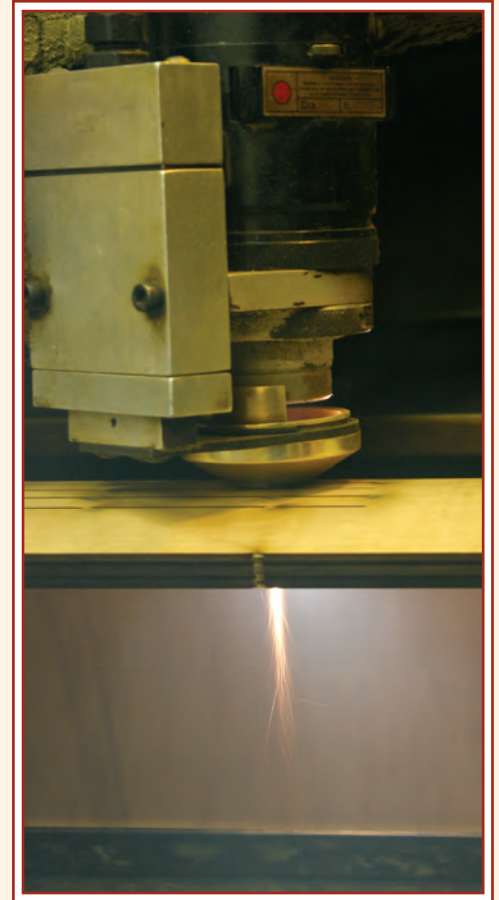

We took an art and made it a science. DiTech takes advantage of automated rule processors and benders that enhance our ability to provide you with a better product at a lower cost, faster than you could imagine.

PHOTOPOLYMER PRINTING PLATE EQUIPMENT:

All art is digitally designed using Mac or PC based software, then matched to the cutting die CAD file. This ensures precisely matched printing plates and cutting dies. After this critical check, the file is output to our in-house image setter and MacDermid plate equipment. We use state of the art resins processed on meticulously clean and highly maintained plate equipment. Those who use DiTech know, with just ONE order, they get the highest quality, most productive, most perfectly matched set of tools in the industry !

DiTech Also Offers:

- Counter Plates
- Water Jet Rubber
- De-Bossing Die Sets
- TIG Welding
- Blanking Tools
- Embossing Die Sets
- High Rule Dies up to 4"
